Automated Pre-Roll & Cone Filling Machines

Introducing ProcePack's Innovative

PreRoll-Er™

The PreRoll-ER is the ultimate solution for packaging your pre-rolls. We offer all the equipment necessary to automate the packaging of your pre-rolls. From flowers to tubes, whether papers or cones, it works with various lengths & tube sizes!

- Production of up to 700-1250 pre-rolls/hour
- Replaces 15-20 persons per shift (short ROI)
- **For conical or straight cylinder pre-rolls on the same machine (check below)**
- 30 months of R&D, Patent pending technology
- Guaranteed weight of 0.01g (weigh before filling)
- Exit weight checking with reject station
- For pre-rolls of 0.25 to 2g (easy adjustment)
- Adapts to all cones sizes & brands
- Pre-rolls consistency in shape & THC content
- Compaction top & bottom for uniform density
- Improve twisting station & advanced adjustable cutting station
- Flat top premium pre-roll finish
- Easy to clean to prevent cross contamination (auto-cleaning feature)
- Fast & less tool changeover
- Complete modular for easy upgrade
- One operator for up to 5 PreRoll-Er machines
- GMP compliant, UL/CSA approved
- Electrical: 220V, 1Ph, 3.3kWh
