

**Ecolo E150-TVS is a self contained odor control system that throws waterless odor control solution in the form of vapor. The feature rich oscillating vapor cannons are built for stand alone odor control operation and can be used to replace much larger water based odor control systems.**

## E150-TVS

## SPECIFICATIONS

Product code	10-AOC-E150-TVS
Current consumption,	6.5 amps
Specified voltage	220 V
Frequency	60 Hz
Power cable length	13 ft. / 4 m
Fan starter	DIRECT
Emergency stop	YES
Control panel buttons	Vapor START/STOP Fan START/STOP Oscillate START/STOP
Weight	284 lbs. / 129 kg
Length	24" / .6 m
Width	30" / .75 m
Height	69" / 1.67 m
Elevation, HAND	20° to 60°
Programming	Event cycle with 24/7
Turning Electrical (automatic oscillation)	
Turning area	Center of turning area fixed
Turning area setting	20° or 40°
Base	Fork truck pockets or mounting base
Construction	Control panels - stainless steel Chassis - hot dipped galvanized steel

**The AirStreme E150-TVS Vapor Cannon** throws Ecolo's industry leading XStreme™ waterless odor control neutralizing solution in the form of 1 micron vapor particles. These smaller, lighter and higher numbers of particles increase the opportunity for collision and absorption between an XStreme™ Vapor Solution molecule and malodor molecules creating a new molecule with non-odorous characteristics. Unlike scenting products, the XStreme™ Vapor Solution technology permanently neutralizes the odor by reacting with it.
